

## Matrax 4x4 Composite Mat Accessories

### SAFETY FIRST.

### FEATURES

- High quality HDPE composite material
- Secure pre-installed camlock connection system made from exceptionally durable nylon material, free from rust or corrosion
- 100% recyclable
- Made in the USA

Accessories for the Matrax 4x4 Composite Mats were designed to enhance the appearance, function and protection of the system. ADA compliant ramps and edge support blocks create a smooth transition and safe movement for vehicles and pedestrians onto the mat surface, free from trip hazards along the exposed mat edges.

The build joint accessory allows for a bi-directional installation, creating flexibility and efficiencies in the field, while also accommodating for naturally occurring heat expansion.

Specification	Dimensions	Weight
ADA Compliant Ramp	43.75 in x 12 in	13.5 lbs
Edge Support Block	3.75 in x 4 in	5 lbs
Bi-Directional Build Joint	44 in x 26 in	26 lbs
