Home Sport and Play Tile

Home Athletic Floor Foam Tile.

When you need something a little thicker than our 5/8" foam tile, the Home Sport and Play Tile is just what you're looking for. 7/8" thickness makes it ideal for use in home gyms, basements, and kids playrooms. This foam tile can also be used for floor exercises, kickboxing, aerobics, and home martial arts. This tile features a double sided design, one color per side. Two border strips included per tile.

Colors Available:

Red/Blue

Black/Gray

Green/Brown

Wood Grain Reversible

Now a Durable Wood Grain Foam Tile.

This reversible interlocking foam tile is 1/2 inch thick. It features the most durable top texture surface with a wood grain look on the market. The reversible design of this tile features a solid color thatch texture on one side and a smooth wood design on the other. Great for home basements, kids rooms, and trade show flooring. The double sided feature doubles the usefulness of this foam floor tile. Two border strips included per tile.

Wooden Grain

Tan

StayLock Modular Floor Tile

Athletic and Ergonomic Fatigue Flooring

StayLock modular floor tile features a bump top or orange peel top surface design that can be used for ergonomic and industrial fatigue flooring, aerobic and exercise floors and in the home. The tile connection design will keep the modular floor tiles together tightly and will not separate over time. Installation of this waterproof floor tile is very easy and quick, simply lay the tab side of the tile over the loops and connect the tiles together. Border and corners ramps available.

Applications:

- Aerobics
- Home Gyms
- CrossFit
- Ergonomic Floors
- Industrial Fatigue

Features:

- Cushion Benefit
- Tight Fitting Connection
- Waterproof & Durable
- Resistant to Oils & Acids
- Fatigue Relief

StayLock Perforated Floor Tile

Non Slip Flooring for Wet Areas, Pools, Decks and Rooftops.

This non slip flooring tile is a perforated version of the solid top tile shown above. Made of durable soft plastic material, this tile provides traction and comfort on wet surfaces. Great for patios, spas and pool surrounds, rooftop decks, shower floors, and industrial applications. This 1x1 ft perforated floor tile is perfect for pool and spa surrounds because it's easy on bare feet and durable enough for most outdoor furniture. Border and corners ramps available.

Applications:

- Decks, Patios and Roof Tops
- Wet Areas
- Locker Rooms and Showers
- Spa and Pool Surrounds
- Industrial Fatigue Wet Areas

Features:

- Non Slip Flooring
- Comfortable to Bare Feet
- Resistant to Oils and Acids
- Tiles will not Separate Over Time

Rolled Rubber

Environmentally Friendly and Cost Effective.

Durable rolled rubber is designed for high abuse, high traffic areas. Featuring a smooth surface, it still provides excellent traction. Perfect for a variety of different flooring applications including weight rooms, fitness centers, locker rooms, skating arenas, dugout areas, clubhouses, and pro-shops. Cut to length as desired. 10 foot rolls also available for smaller areas.

Plyometric Rolls

Specialized Plyometric Flooring Absorbs Impacts.

Excellent for plyometric training activities such as jumping and footwork drills, this rubber material is less dense than our standard rolled rubber. It is available in 3/8 and 1/2 inch thickness in 4 ft wide rolls. This rolled rubber comes in standard lengths of 25 and 50 ft. Custom cut lengths are also available. Plyometric rubber is designed for high impact floor training such as cross-fit and plyo training and will reduce leg and body fatigue.

Rubber Mats 4x6 Ft

Excellent Multi-Purpose Rubber Mats.

Available in three thickness, this all purpose black rubber mat with straight edges is an economical option for commercial and residential uses. Available in smooth or diamond surface pattern, this rubber mat can be used in home gyms under weight equipment or in industrial applications. 10 mat minimum order due to shipping costs. Must ship freight on a pallet.

Home Gym Pebble Tile

Durable Home Gym EVA Foam Tile.

This super high density EVA foam tile is an excellent choice for home gyms where a lightweight, durable, and affordable flooring is needed. Because this tile can ship via ground delivery service, customers can save money over expensive freight shipping costs. With a 3/4" thickness, this product will stand up to most exercise equipment in home gym environments. This tile features a durable pebble top surface design that is scuff resistant, and is easily cut to fit for wall-to-wall installations. Two border strips included per tile.

Interlocking Rubber Flooring 2x2 Ft

Three Colors Durable Interlocking Floor Tiles.

Our best selling, interlocking rubber flooring tile. Features solid black and two dynamic color mixes of light gray with blue or tan with brown. All colors are stocked and black is ready to ship the next business day from the Greatmats warehouse. Choose this durable 8 mm thick interlocking rubber flooring tile for home gyms and basement floors or in a commercial gym floor for an easy, no-glue installation.

Colors Available:

Black

Light Gray/Blue

Tan/Brown

Geneva Rubber Floor Tiles 3x3 Ft

Larger Interlocking Tile Size Reduces Seams.

This interlocking rubber tile is stocked in three basic colors for large scale projects that need quick shipment. The larger 3x3 ft tile size features fewer interlocking seams when installed in large areas. Available in cost-saving utility black, 100% black, and two colors at 10% fleck, this tile can be custom made in any color combination with low minimum order requirements. This tile is our best choice for custom colors and high color tile requirements.

Colors Available:

100% black

Utility Black

Tan

Light Gray

Blue

Rubber Tile Color Plus

Top of the Line 100% Color Rubber.

Choose this durable and high quality 100% color rubber tile for upscale professional gym floors and homes that require the best. This interlocking 2x2 ft rubber tile features a complete array of solid color choices for the gym floor where design and appearance is most important. The unique color options and top texture design are not found in any other product and the durability and tensile strength of this rubber tile is second to none. Very popular with professional, upscale weight rooms and professional athletic facilities. The interlocking seams of this tile are very tight fitting and will not separate over time. Most colors are made to order. Some color variations will occur from lot run to lot run.

BestGym Rubber Tile

Eco-Friendly 100% Color Professional Rubber.

BestGym rubber flooring is a professional quality rubber floor tile designed with a durable top surface that features solid colors. BestGym is both eco-friendly with a recycled content base material and professional quality with a 100% color top. This rubber tile combines toughness with great looks and can be used in home gyms, professional weight rooms, and recreational facilities. BestGym rubber tiles are a very popular with commercial installations around the country.

This tile is available in straight edge design for a glue down installation or as an interlocking tile for a dry lay install. Most professional installations prefer a glue down tile install whereas homeowners may prefer the interlocking design. Some tile coverage loss will occur with the interlocking tile. This tile requires stripping, cleaning, and sealing immediately after installation.

Puzzle Tile

Rubber Tiles with Corner & Border Edging.

This interlocking rubber tile features three component tile types: corners, borders, and center tiles which makes it ideal for island installations or where a rubber flooring is needed that can be moved later. Easy interlocking design is precision cut for a tight fitting tile every time. Choose black or 10% color fleck in light gray or blue. This tile system is engineered to protect floors in areas such as home exercise rooms and home gyms, dog facilities, and dugout areas. This tile is 8 mm thick and ships freight delivery only.

3/4" Weight Room Rubber

Heavy Duty Floor Protection, Interlocking Design.

Go ahead, drop some weights on it. These rugged 3/4" rubber tiles are the best value you can find. Designed to be abused for decades, this tile is very popular with home lifters and commercial gyms. Perfect for under exercise equipment, free weights, and weight machines.

RubberLock Floor Tile

Larger Tiles are Perfect for High School Gyms.

Larger 4x4 ft tile size makes this interlocking rubber tile an easy and quick installation project with no glue required. This tile features a durable diamond top surface texture in 3/8 and 1/2 inch thickness. RubberLock is economical and provides excellent durability. It is very popular with high school weight rooms, ice arenas, and military installations. This tile offers a corner and border system if needed and ramped edging is an option. This tile is not recommended for customers who are sensitive to strong smells. This tile is very affordable for large scale installations and is made with a sulfur based adhesive compound.

Zip Tile Rubber Flooring

Interlocking Tile in Many Colors.

Manufactured in the USA from recycled rubber, this tile features 10% fleck options in a variety of colors. Zip Tile features a non-universal interlocking design in a 28.5 x 28.5 inch tile size. Use the Greatmats online floor plan designer to calculate the number of tiles needed for your project. This tile is featured in 8 mm thickness for value and is stocked on the west coast which saves shipping costs for customers in that region. This interlocking tile requires no adhesive and can be transported if needed.

Burke Endura Commercial Rubber Flooring

Commercial Grade Rubber Tiles & Treads.

Our commercial rubber flooring line features Burke Flooring including the Endura and Burke lines of rubber floor tiles and professional quality rubber stair treads and risers. These commercial lines feature an extensive array of standard and flecksible colors which are great for libraries, retail, and institutional locations. This rubber flooring features a no wax solution that delivers low cost maintenance. Simply wash and buff, no waxing required.

Burke Endura offers several textured surface options that feature a slip-resistant design and can help to increase the safety of your facility. Choose smooth design for health care facilities while coin top is excellent for high traffic areas. Sculptured may be desirable for libraries and retail. Color options include solid colors or flecksible design colors. This product matches most other commercial rubber flooring specifications that may be found in commercial bids.

Burke Marble and Marble HD Tiles

Grappling MMA Floors

Designed Specifically For The Grappling Arts and MMA.

This flooring is used by professionals for MMA, BJJ, Jiu Jitsu, and grappling in dojos and athletic facilities nationwide. These tiles are 1-5/8 inch thick and designed for full-on takedowns and BJJ or MMA training. The density of this foam tile allows it to be installed directly over concrete and used immediately for training and competitions. Tiles are double sided and feature a non-universal interlock design which makes them reversible. Two colors can be displayed up at the same time. Tiles are 1x1 meter in size and will easily interlock together with an extremely tight fit. Tough, tatami surface texture will not give skin burns. Border strips included.

Premium Martial Arts Mats 1"

Simply the Best Interlocking Karate Tile.

The density and durability of this interlocking Karate flooring system is designed to offer a relatively hard surface in an EVA foam floor. The quality and longevity of this Karate floor tile is the best on the market and our wooden grain color option is a popular option. The top surface texture features a tough, non-slip design and is excellent for fast foot work and kicking drills with bare feet or soft martial arts shoes. When you want a safe and comfortable foam flooring system that feels similar to hardwood, this product is your solution. A full one-inch thick, these tiles provide phenomenal impact absorption and are waterproof. They feature a reversible, interlocking design. Border strips are included.

Crash Pads

Up to 12 Inch of Protection.

Crash Pads are valuable in many sizes and thicknesses. They are designed for practice throws in martial arts facilities or as landing pads for cheerleading and gymnastics. Made in the USA with top quality foam material and vinyl covering.

Gymnastics Shapes, Octagons & Inclines

Single or Double Custom Colors.

Octagons are available in 6 sizes and are perfect for training forward rolls, walkovers, and back handsprings. Our largest models are great for cheerleading programs. Filled with premium quality polyurethane foam and available in one or two color designs. Many colors to choose. See website.

Folding Mats

Use for Gymnastics, Cheer & Tumbling.

They can be used on any hard, flat surface including outdoors in dry areas. Common sizes of our gym folding mats are 4x8 and 5x10 feet. Both 1.5 and 2 inch thicknesses are available with hook and loop fasteners on two or four sides. Custom gym folding mats are available in any size and color. Gym folding mats are easy to lay out and store as needed.

Skills Cushion Mats

Skill Landing Mats, Safety Mats.

Pick the perfect thickness for your program! Our 4" Skill Cushions are built for toddler and preschool rooms where just a little extra protection is needed. Our 8" mats are the workhorse of most gymnastics and tumbling programs. Try our 12" mats where extra protection is desired. All 8" and 12" Skill Cushions have breather mesh sides and feature double stitched top surfaces.

Competition Landing Mats

Gymnastics Training Mats, All Sizes.

Competition gymnastics landing mats are available in two thickness 12 and 20 cm and in various sizes from 4x7.5 to 8x18 ft. Choose either non folding or single fold gymnastics competition landing mats, available in standard blue color. Custom made to your specific landing mat size. All of these competition landing mats are topped with a laminate layer of 1 3/8" crosslinked polyethylene foam.

Rosco Marley Dance Flooring

Vinyl Dance Floors for All Dance Types.

Greatmats offers a complete line of marley dance floors for dance studios and theater use. Greatmats can help you choose the right marley floor for your specific dance type including ballet, modern, jazz, tap and ballroom. Install with either tape or glue down method, heat weld seams for a seamless floor. Custom cut lengths available to make your installation quick and easy. Portable marley flooring types available for your next off site event. Rosco dance flooring is known for quality and value and is proud to have an excellent reputation in the industry.

Sprung Dance Floor

The Perfect Combination Of Bounce And Stability 42x42 inch panels.

WaveLock technology that eliminates any soft or hard spots in your floor. Wall to wall and island installations are no problem. Great for all dance types including ballet and tap, this sprung floor provides the correct spring and bounce. It is flexible enough to absorb the energy from a dancer's impact but provides the right amount of resistance for dance movements. This sprung floor system can be removed if needed and will keep its value over time. Marley dance flooring is required on top of this sprung floor by Rosco.

Dance Subfloor System

Cost Effective Dance Subfloor.

This two layer system provides a firm top surface with a cushion underlayment. Easily install this floor with no glue or fasteners. Simply interlock the foam tiles together on top of your floor then snap together the hard plastic tiles on top of the foam layer. This combination provides cushion with a firm top surface to install your marley dance floor.

Foam Cushion Underlayment

Economical Cushion Dance Floor Solution.

This product is one layer of easy to install, high density, interlocking foam tiles that serve as a cushion underlayment. Ok for use directly on top of any hard surface. Install marley vinyl dance floor on it as your finished dance surface. This underlayment is not recommended for pointe or high heel dance types.

Cheerleading Rolls

Choose from 1-3/8 or 2" thickness.

Home Flexi Rolls

You Can Practice Your Moves And Skills At Home On The Same Style Mat That You Compete On.

Makes set up, take down, and storage easy. Just unroll anywhere, indoors or out, and you have your own practice area. Roll the mat up and it stores on end in less than an 18" square area. 4 x 6 and 5 x 10 Ft sizes

Flexible Roll Out Mats

Easy Roll Mats for Martial Arts, 21 Oz. Vinyl Top.

This 6 ft wide professional roll out mat is an excellent flooring choice for MMA, BJJ, Judo, Jiu Jitsu, Karate, and TKD. Custom cut to any roll length over 18 linear feet to fit your martial arts facility. This roll out mat is made of the highest quality polyethylene closed cell foam. It is flame-laminated to a durable 21 oz. vinyl top surface in smooth or tatami texture. Used in professional studios nationwide and made in the USA with a five-year limited warranty.

Roll Out Mats 5x10 Ft x 1.25 Inch

Train at Home for Sports Exercise.

This home version of our professional Roll Out Mat features the same high quality of foam and vinyl top surface. Available in one standard size of 5x10 ft x 1.25 inch thick. Easily roll up and store when needed. This mat unrolls completely flat every time its used and never curls or rolls up. Can be used on top of carpeting for home exercises and aerobic activities. Great for martial arts, wrestling, and similar sports. Made in the USA with a five-year limited warranty.

Kids Kushion Playground Tiles

Top Quality Rubber Playground Tiles.

Designed for professional installations in playgrounds at schools, churches, and parks in all environments both indoors and out. Designed to provide impact absorption for falls while providing excellent drainage. Featuring fall height ratings up to 10 ft. Made from quality 100% recycled crumb rubber material, this product contains no hazardous materials—all paint and binders are lead free.

Standard and ADA compliant transition border ramps and corners with beveled edging are designed to provide safe passage on and off the tile surface. Install on any hard surface such as asphalt or concrete or on a compacted and leveled base of crushed stone or similar material. Use mesh under the tiles to prevent weed growth. Installation options include full glue down or tile clip methods.

Bounce Back Playground Tiles

Playground Tiles with Interlocking Design Option.

Bounce Back tiles provide shock absorption and a fall height rating up to 10 ft. This resilient rubber tile is available as a straight edge or interlocking tile design. Interlocking tiles are ideal for rooftops where the tiles can not be glued to the surface. Tiles are virtually maintenance free. Tile makeup allows water to seep through without puddling on the surface. Made from quality 100% recycled crumb rubber material, this product contains no hazardous materials—all paint and binders are lead free.

Standard and ADA compliant transition border ramps and corners with beveled edging are designed to provide safe passage on and off the tile surface. Install on any hard surface such as asphalt or concrete, or on a compacted and leveled base of crushed stone or similar material. Use mesh under the tiles to prevent weed growth.

Colors Available:

DeckTop Tile

Make Your Deck Look Fantastic.

DeckTop Tiles provide the perfect combination of beauty and functionality for outdoor rooftops and decks where a floating rubber flooring is needed. These 1-3/8 inch tiles are porous and permeable and protect roofs and decks from the elements while providing excellent drainage. They have been designed to be installed on top of fragile waterproof roofing membranes using SureKonnnect connector pins. This means installation is quick and easy with no adhesives required. DeckTop tiles are built of high density rubber material for enhanced durability and puncture resistance.

Install on any surface such as asphalt or concrete, or on a compacted and leveled base of crushed stone or similar material. Use mesh under the tiles to prevent weed growth. Made in the USA with a five-year limited warranty.

Sport Play Tile

Minimize The Impact.

Sport Play Tile is an indoor / outdoor tile which provides a durable rubber surface used to soften hard surfaces in play areas, decks, and gym floors.

These one-inch tiles feature a 2 foot fall height rating. They are great for small children in play areas with no standing playground equipment. Use on sport floors, rooftops, and decks where an outdoor rubber surface is needed.

Install with adhesive or use the SureKonnnect 3-inch connector pins to hold the tiles together with no adhesive. Beveled border ramps provide a safe transition on and off the tile surface. Made in the USA with a five-year limited warranty.

Kids Matta Tile

Modular Play Surface Tiles Indoor & Out.

Brightly colored Kids Matta tiles help stimulate children's minds during recess and playtime and provide a safety fall height of 20 inches. Tiles provide excellent sound-dampening and anti-fatigue qualities. Easy to install, they come in open or closed cell design. They are waterproof, flexible, durable, and allow rain to flow through rather than to puddle on the surface in outdoor installations. This tile features the ability to install on any surface including grass and dirt for outdoor installations. Used extensively in preschool environments.

Colors Available:

Temporary Floor Tile

Portable Outdoor Event & Tent Flooring.

Uniquely designed for uneven terrain for outdoor events and tent flooring, this tile will not separate under the most strenuous conditions and can bear the weight of a vehicle. Tiles are rated to 20,000 lbs per SF. The unique tile hinge design snaps together like no other flooring system. In addition, the flooring can be rolled up and down for fast set-ups and take downs. Each tile has drainage holes that allow water to flow freely downward. Textured top surface pattern provides anti-slip design when wet. This tile can be used on any irregular surface including grass, dirt, gravel and sand.

Auto Perforated Tile

Upgrade Your Garage.

Auto Perforated Tile has all the durability and versatility of our Diamond Plate Tiles but has perforations to allow for air flow and water drainage. Not only ideal for garages, it can be used in all the places our Diamond Plate Tile can be used. Easy to install and remove. Anti-fatigue and non-slip, they are chemical and bacterial resistant. Weight limit of 110 lbs. per square inch or 18,000 lbs per tile.

Diamond Plate Tile

A Practical And Cost-Effective Alternative To Painting Your Garage Or Workshop Floor.

The leading choice of Indy and Indy Light racing teams, Diamond Plate tile has a polypropylene, high-impact design that ensures it will perform and last. Whatever your category of floor, Diamond Plate will work great and you can use them just about anywhere. Great for workshops, under awnings, in RV's, and campers, or for catering and parties. Just lay the tiles over cracks or uneven surfaces in minutes. No preparation is needed. Strong enough to support cars and small trucks. Easy to clean, tiles are not damaged or stained by most chemicals including oil, grease, brake fluid, petroleum products, or battery acid. Weight limit of 110 lbs per square inch or 18,000 lbs per tile.

Snap Diamond Garage

The Most Affordable Garage Flooring Available.

Snap Diamond tile offers great slip-resistance and makes any residential garage look great.

Snap Coin Garage Tile

Traditional Coin-Top Garage Flooring - A Classic Design.

A hugely popular product, this American-made coin top tile offers great traction and makes any residential garage look great.

PVC Diamond Grid Tile

Introducing A High Performance Floor Covering At An Exceptional Value.

Designed to protect workshops, garages, and home or commercial gyms. Unique butterfly interlocking edge gives the floor unsurpassed stability and strength. Waffle back design gives the Diamond Grid floor resilience for a comfortable feel and stays firmly in place. Available in a variety of different colors. Can be installed over any solid floor. Use sealer on PVC for garage installs.

EZ Snap MAX Tile

Commercial Quality Raised Flooring Tiles.

This commercial grade vinyl top surface features a 20-year wear layer and a 10-year product warranty. The modular, snap together base of this tile is the best design on the market and features a tight fitting and easy to assemble and disassemble connection system. Popular for basement floors, sports floors, and portable dance floors. Use this tile indoors and out for events or permanent installations. Use a 3 mm rubber underlayment to add cushion and sound dampening. Install with a simple step of the foot and clean with common household floor cleaners. Durable scratch resistance. No-maintenance surface is designed for commercial installations in high traffic areas. An excellent choice for aerobic and exercise floors and multi-purpose installations.

Colors Available:

HiddenLock Tile Slate Top Perfect for Home Installations.

A unique and easy to install hidden interlocking design features a durable and attractive modular floor tile for home and commercial use. Install this floor tile in your home basement, work area, or den. Also great for retail and office environments.

Colors Available:
