Product specifications - continued

- Vulcanized rubber mats insulate, cushion, and give excellent traction, even when wet.
- Takes the blows—a three quarter inch of solid vulcanized rubber between your investment and potential damage.
- Recommended uses are for truck boxes, dog kennels, workshops, anti-fatigue applications, mud rooms, tack rooms, and more.
- Mats can be die cut for vibration pads, seals, wear pads, under equipment, or on rooftops.

INSTALLATION:

- Have surface as level as possible to ensure that the mats will lie flat.
- Measure the area where the mat will lie. Mark the desired mat with chalk and cut to fit using a utility knife and straight edge as a cutting guide.

MAINTENANCE: • Clean sweep or hose down.
