

Overview

LEED for New Construction

Greatmats

Equi Rubber Tiles

The Leadership in Energy and Environmental Design (LEED®) Green Building Rating System™ represents the U.S. Green Building Council's effort to provide a national standard for what constitutes a "green building" It is utilized as a design guideline and certification tool for architects and designers seeking to develop high-performance, sustainable buildings.

LEED Version 2.2 is an updated version of the rating system for New Construction and Major Renovations (LEED-NC). It is designed to guide and distinguish high-performance commercial and institutional projects.

The rating system defines the requirements, by category, to achieve each prerequisite and voluntary point. Projects earn one or more points toward certification by meeting or exceeding each credit's technical requirements. Points compute to a final score that relates to one of four possible levels of certification.

Greatmats Equi Rubber Tiles are designed to meet the stringent criteria required to contribute the achievement of LEED Credits in

Category	Credit Title	Credit Number	Number of Attainable Points
Materials & Resources	Construction Waste Management	MR 2.1	1
	Construction Waste Management	MR 2.2	1
	Recycled Content	MR 4.1	1
	Recycled Content	MR 4.2	1
	Local / Regional Materials	MR 5.1	1
	Local / Regional Materials	MR 5.2	1
Indoor Environmental Quality	Low-Emitting Materials	EQ 4.1	1

Recycled Content

Decking Tiles	Dimensions			Color	Recycled Content		
	Thickness	Length	Width		Total	Post-Consumer	Pre-Consumer
Center Tile	1.38'	24'	24'	Black	92.59%	89.55%	0.00%
Ramp	1.38'	24'	24'	Colored	89.29%	89.55%	0.00%
