

G-Floor Vinyl Care & Maintenance

Quick Clean Routine:

- Sweep or vacuum to remove dirt and grit
- Hose down or mop with cool water and a mild detergent
- Use a deck brush or soft scrub brush for textured surfaces
- Let air dry before walking or driving over it

Even oil, fish scents, suntan lotion, and muddy gear clean up easily. Just wipe spills as soon as possible to avoid stubborn stains.

Recommended Tools

- Microfiber cloths
- Broom or vacuum
- Deck brush or soft bristle scrub brush
- Soft toothbrush (for corners or seams)
- Power washer (use with caution and keep nozzle at least 12 inches away)

Approved Cleaners

Always follow manufacturer guidelines and test in a small area before use.

- Mild dish soaps or vinyl-safe detergents
- Rejuvenate Non-Skid Deck Cleaner
- Starbrite Vinyl Cleaner or Mildew Stain Remover
- 3M Marine Mildew Remover
- IMAR Multi-Purpose Marine Cleaner
- Meguiar's Vinyl & Rubber Cleaner/Protectant
- Bass Pro Shops Non-Skid Deck Cleaner with PTEF

Do Not Use:

- Bleach (undiluted)
- Acetone or harsh solvents
- Marine hull cleaners
- Oxy-clean type detergents

Heavy-Duty Cleaning (for Stains)

G-Floor® is stain-resistant—but not stain-proof. If left too long, certain spills can leave a mark. Here's how to tackle tough spots:

1. Rinse area with cool water to remove grit and debris
2. Apply diluted cleaner and let it sit 2–3 minutes
3. Gently scrub with a soft brush
4. Wipe clean with a microfiber towel
5. Rinse thoroughly to remove residue
6. Air dry fully before walking or placing items on top

Common Stain Sources

These substances can stain if left untreated. Clean up promptly:

- Motor oil, gas, brake fluid, antifreeze
- Suntan lotion, fish scents, fuel stabilizer
- Battery acid, hydraulic fluid
- BBQ sauce, ketchup, mustard, red drinks, coffee
- Mildew, mold, and organic debris (leaves, bait, etc.)

Helpful Tips

- Clean spills right away—don't let them sit
- Rinse thoroughly after using any cleaning agent
- Allow floors to dry before use to avoid slips
- Avoid cleaning with harsh chemicals near bodies of water
- Use a mildew stain remover at the first sign of discoloration
