Installation

1. Place first tile in a corner with the loops pointed in the direction that you want to add tiles.

-
2. Keeping the loops in the same direction, continue to add tiles. Place tabs of new tiles over loops of the already laid tiles and push down until they snap into place.

-
3. Work out evenly in both directions.

4. Add border strips in same manner, if desired.

Cutting Tiles

1. Using tape measure, measure distance between existing tiles and wall.

2. Using pen or marker, mark that distance on the tile you'd like to cut, keeping in mind direction of the tile.

3. Using straight edge, draw line(s) where you'd like to cut.

4. Cut along lines using power saw.
