

Humane Manufacturing Company LLC

Recycled Content of Humane Manufacturing Mats

Pre Consumer recycled content is zero.

Post Consumer Recycled Content:

Mat Thickness	Black	25% Speckle
3/8"	94%	89%
1/2"	94%	91%
3/4"	94%	93%

Our recycled content qualifies for **1 point** under MR 4.1, MR 4.2 for New Construction, Commercial Interiors, Existing Buildings, and Schools.

You would also get another **1 point** under MR 5.1 and 5.2 for local and regional materials.

Percentage on Speckle mats varies because we only put a 0.150 thick color layer on the top surface of the mat.

Raw Recycled materials used in Humane Mats is extracted within 500 miles of plant locations and Manufactured in Baraboo WI and Janesville WI.

EPA 24 Test Results for VOC Content <1.0%

Our VOC results would qualify you with another **1 point** under EQ 4.3 on flooring systems

This information can be used to acquire points toward LEED certification under Materials & Resources for recycled content and local/regional materials. Visit www.usgbc.org for details on Certification. More specifically see the LEED checklist for new construction and renovations document at <http://www.usgbc.org/ShowFile.aspx?DocumentID=5546>
