

Vinyl Repair Kit

Thank you for ordering this vinyl repair kit. Please be advised that the HH-66 Vinyl Cement is an extremely flammable substance and should be handled accordingly. You must read the directions and product cautions which are clearly detailed on the label. If you have any questions or concerns, do not proceed with your mat/wall pad repair. Immediately call 877-822-6622 for additional assistance.

Contents:

- (1) color vinyl swatch (approximately 18" square)
- (1) 4 oz. can HH-66 Vinyl Cement

Directions to repair ripped vinyl:

1. Clean the ripped vinyl with alcohol to remove any oil, dirt (etc.) which may interfere with the adhesion process.
2. Cut a vinyl patch that is larger than your tear by 2-3".
3. Use your patch as a template and place it centered on the tear, trace an outline of the patch. This will serve as your glue area.
4. Using the brush inside of the glue pot, apply an even coat to both vinyl surfaces.
5. Let dry about 2-3 minutes before pressing together.
6. Reseal can lid and store in cool, dry area away from heat and/or open flames.
