

Greatmats Adagio Cushion Home Dance Floor Kit

Installation Instructions

Select a hard, flat indoor surface.

Sweep or vacuum to remove any debris.

Using a sharp utility knife, cut the marley into two equal sections; each 10 linear feet long.
Set aside.

In the area that will be your dance floor, place the Sport Plus Designer Foam Tiles, in 5 rows with 5 tiles each, interlocking as you go.

Place the two sections of marley on top of the foam tiles, matching the long sides.

Leaving a 1/8 inch gap for expansion, tape the two sections of marley together.
